Plastic surgery isn't about the procedure, it's about YOU. That's why my first priority is to listen to YOU; then uncover and understand your hopes and needs. As a result, I'm able to shape the plastic surgery procedure to fit your ideals; not mine. When you know that your surgeon understands what's most important to you, it makes all the difference in how you look and feel

- David R. Broadway, M.D., F.A.C.S.
